PROFESSIONAL SUMMARY

Recent IT graduate with a National Diploma in Software Development (Distinctions) and a Higher Certificate in IT Support Services, seeking a Junior Software Developer or Entry-Level IT Support role. Hands-on experience building live client-facing web applications using HTML, CSS, JavaScript, PHP, Kotlin and C#, alongside completed Cisco CCNA training (Modules 1–3) and Cybersecurity certification. Demonstrated ability to deliver real projects for clients and NGOs, with freelance experience and a strong foundation in both software development and networking.

WORK EXPERIENCE

Freelance Web Developer | Self-Employed 2025 – Present

- [Designed and developed a live Electronic Press Kit \(EPK\) website for DJ Liyema S.A., including embedded YouTube mixes, social media integration and a bookings section](#)
- [Designed and developed the Singana Foundation website, enabling the NGO to share its mission and onboard new members online](#)
- Manage client relationships, project scope, timelines and delivery end-to-end

Junior Financial Advisor | Matla Life Oct 2025 – Dec 2025

- Consulted clients on suitable life insurance and financial products, developing strong communication and needs-analysis skills
- Managed a personal client pipeline and consistently worked toward monthly sales targets
- Gained experience in a target-driven, client-facing professional environment

CCNA Learnership (MICT SETA) | Simplificom Feb 2026 – Apr 2026

- Completed a formal CETA-accredited learnership covering networking fundamentals, switching and routing, wireless networking, network security and basic automation
- Successfully completed all three Cisco CCNA modules (Introduction to Networks; Switching, Routing & Wireless Essentials; Enterprise Networking, Security & Automation)
- Gained hands-on experience with Cisco IOS configuration, IP addressing, VLANs and network troubleshooting

PROJECTS

[DJ Liyema S.A. — Electronic Press Kit \(EPK\) Website](#) 2025 – Present

- Built a fully responsive client-facing EPK website for a professional South African DJ, featuring embedded YouTube mixes, Instagram and Facebook integration, and a bookings section
- Tech Stack: HTML, CSS, JavaScript | Deployed on Vercel

[Singana Foundation Website](#) 2024

- Designed and developed a live website for a South African NGO, enabling them to share their mission publicly and provide a platform for community members to get involved
- Tech Stack: HTML, CSS, JavaScript | Deployed on Netlify

Bird Watching Mobile Application 2023

- Developed a mobile app enabling users to discover local bird-watching hotspots, record sightings and track their GPS location in real time
- Tech Stack: Kotlin, Android Studio, REST APIs

Neli Rose Retirement Home — Application & Website (WIL) 2022–2023

- Collaborated in a team to design and develop a full-stack application and website for an NGO retirement home as part of the Work Integrated Learning programme
- Contributed to both front-end (HTML, CSS, JavaScript) and back-end development as part of a team
